

Getting to know your Echo Dot

3. Set up your Echo Dot in the Alexa app

Open the Alexa app to set up your Echo Dot. Log in with an existing Amazon account username and password, or create a new account. If you aren't prompted to set up your device after opening the Alexa app, tap the More icon to add your device manually.

The app helps you get more out of your Echo Dot. It's where you set up calling and messaging, manage music, lists, settings and news.

For help and troubleshooting, go to Help & Feedback in the Alexa app or visit www.amazon.com/devicesupport.

Alexa is designed to protect your privacy

Wake word and indicators

Alexa doesn't begin listening until your Echo device detects the wake word (for example, "Alexa"). A blue light lets you know when audio is being sent to Amazon's secure cloud.

Microphone controls

You can electronically disconnect the microphones with the press of a button.

Voice history

Want to know exactly what Alexa heard? You can view and delete your voice recordings in the Alexa app at any time.

These are just a few of the ways that you have transparency and control over your Alexa experience. Explore more at amazon.co.uk/alexaprivacy.

Things to try with your Echo Dot

Enjoy your favourite music and audiobooks

Alexa, play '90s rock.
Alexa, resume my audiobook.

Get answers to your questions

Alexa, what time is sunset?
Alexa, what can you do?

Get news, weather and sport

Alexa, tell me the news.
Alexa, what's the weather forecast this weekend?

Voice control your smart home

Alexa, turn off the light.
Alexa, set the living room temperature to 22 degrees.

Stay connected

Alexa, call Mum.
Alexa, drop in on the living room.

Stay organised and manage your home

Alexa, reorder shampoo.
Alexa, set an egg timer for 5 minutes.

Some features may require customisation in the Alexa app, a separate subscription or an additional compatible smart home device.

You can find more examples and tips in the Alexa app.

1. Download the Amazon Alexa app

On your phone or tablet, download and install the latest version of the Alexa app from your app store.

Note: before setting up your device, have your Wi-Fi network name and password ready.

2. Plug in your Echo Dot

Plug your Echo Dot into an electrical socket using the included power adaptor. A blue light ring will spin around the bottom. In about a minute, Alexa will greet you and let you know to complete setup in the Alexa app.

Use the power adaptor included in the original packaging for best performance.

Give us your feedback

Alexa is always getting smarter and adding new skills. To send us feedback about your experiences with Alexa, use the Alexa app, visit www.amazon.com/devicesupport, or simply say "Alexa, I have feedback".
