WIRELESS SMART HOME

# Mini Dimmer

**The smallest** wireless  
dimmer on the market

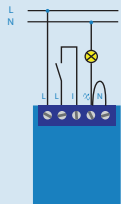

Security 2

# Qubino Mini Dimmer Advantages

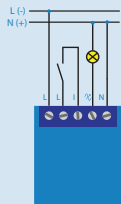

## Works without neutral wire

Mini Dimmer does not require neutral wire (N).  
It works in a 2-wire installation.

### 2-wire installation

### 3-wire installation

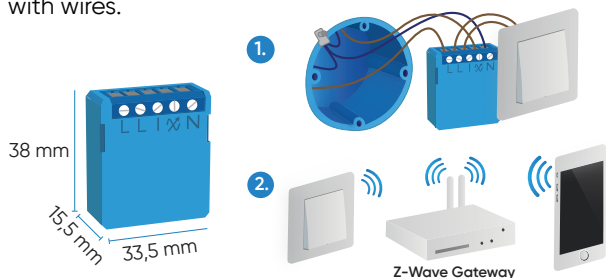

## Dim bulbs from 1W

Connect and remotely control  
low wattage bulbs.  
No minimum load required.

## Quick & Easy Installation

Because of its small size, it fits in even the smallest, most shallow and most crowded electrical boxes overflowing with wires.

## Dim all types of dimmable bulbs

**Incandescent** up to 200W

**Halogen** up to 200W

**LED** up to 150W

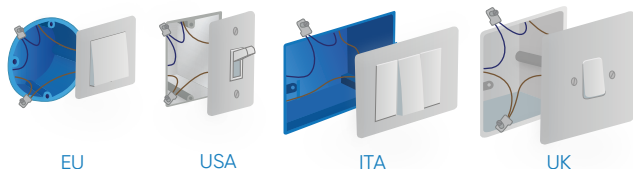

**LED strip** up to 150W

**CFL** up to 150W

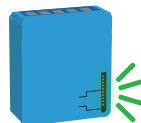

## It fits all types of flush mounting boxes worldwide

Reduce assembly time and installation expenses.  
Install it fast and easy behind a classic switch.

## LED signalization

Easily recognize, if the Mini Dimmer  
is included or excluded from the  
network, be aware in case of  
overload or overheating and  
when the calibration is in progress.
